

K-Love supports me as a resident of my community as I give a donation every month to support programming of my local K-Love affiliate. Many people I am in contact with talk about the wonderful ministry of music and encouragement they get from K-Love, and I am sure you can magnify that manyfold across the country. I feel sickened and saddened if my community or any community lost the family friendly, wholesome values and uplifting voice K-Love dispenses over the airwaves. These are troubling times we face as a country, state, community and individually. I cannot imagine facing them without hearing the good news of Jesus Christ. I believe it is definitely in the public interest to keep K-Love going. I have heard many a testimony on the airwaves of people so affected by K-love it was a life changing experience. How can you take that away from people?
